

Feedback Activity in EtechRU LMS

The Feedback activity allows instructors to collect opinions, suggestions, and evaluations from learners using customizable questionnaires.

PREREQUISITES

- You have editing rights in the course (Teacher or Manager role).
- The course is already created and accessible in EtechRU LMS.
- You have prepared the questions you want to ask (optional but recommended).

BEST PRACTICES

- Keep questions clear, short, and relevant.
- Use a mix of question types for better insights.
- Enable anonymous responses for honest feedback.
- Review feedback results regularly and act on them.

STEP-BY-STEP PROCESS

1

Turn Editing On

- Enter the course in EtechRU LMS.
- Click **Turn editing on** (top right).

2

Add the Feedback Activity

- In the section where you want the feedback, click **Add an activity or resource**.
- Select **Feedback** → Click **Add**.

3

Configure General Settings

- Name:** Enter a clear title (e.g., Course Feedback – Week 1).
- Description:** Explain the purpose of the feedback (optional).
- Enable **Display description on course page** if needed.

4

Set Availability and Options

- Anonymous responses:**
Yes → Learner identity is not recorded.
No → Responses include user details.
- Allow multiple submissions:** Enable if learners can submit more than once.
- Question numbering:** Choose automatic or manual.

5

Add Questions

- Click **Save and display** → **Edit questions**.
- Choose a question type and add each question.
- Save changes.

6

Preview and Adjust

- Use **Preview** to view the feedback form as a learner.
- Edit, reorder, or refine questions if required.

7

Save & Test

- Return to the course page in the LMS.
- Submit a test response to ensure everything works correctly.

COMMON MISTAKES

Forgetting to add questions after creating the feedback activity.

Accidentally disabling anonymous responses when confidentiality is required.

Making all questions mandatory when optional feedback is preferred.

Not testing the feedback before publishing it to learners.

NEED A TIP?

Keep feedback forms short and focused to encourage more learners to respond.

Add Interactive Quiz from Interactive Content in EtechRU LMS

Interactive content allows instructors to create engaging quizzes (such as MCQs, true/false, fill in the blanks) that improve learner interaction and understanding.

✓ PREREQUISITES

- ✓ You have editing rights in the course (Teacher or Manager role).
- ✓ Interactive content (e.g., quiz-based content) is enabled in the LMS.
- ✓ The course is already created and accessible in EtechRU LMS.

★ BEST PRACTICES

- Keep questions clear, concise and relevant to the learning objective.
- Use a mix of question types to keep learners engaged.
- Add meaningful feedback for correct and incorrect answers.
- Preview and test before publishing to learners.

STEP-BY-STEP PROCESS

1

Turn Editing On

- Enter the course in EtechRU LMS.
- Click **Turn editing on** (top right).

2

Add Interactive Content Activity

- In the desired course section, click **Add an activity or resource**.
- Select **Interactive Content (HSP)** → Click **Add**.

3

Choose Quiz Type

- Click **Add content**.
- Select an interactive quiz type, such as:
 - **Multiple Choice**
 - **True / False**
 - **Fill in the Blanks**
 - **Question Set** (multiple questions in one quiz)

4

Create Quiz Questions

- Enter the question text and answer options.
- Mark the correct answer(s).
- Add feedback for correct and incorrect responses (optional).
- Set score points for each question.

5

Configure Behavior Settings

- Enable or disable:
 - ✓ **Retry attempts**
 - ✓ **Show solutions**
 - ✓ **Show score after submission**
- Adjust grading and completion tracking if required.

6

Save & Preview

- Click **Save and return to course** or **Save and display**.
- Preview the quiz to ensure questions and interactions work properly.

7

Test the Quiz

- Attempt the interactive quiz as a learner.
- Verify scoring, feedback, and completion status.

✗ COMMON MISTAKES

✗ Forgetting to mark the correct answer, resulting in zero scores.

✗ Not previewing the quiz before making it available to learners.

✗ Overloading the quiz with too many questions in one interaction.

✗ Not enabling completion tracking when quiz completion is required.
